

LOCK BLØK

Reducing Classroom Distractions

OPEN MODE

Even though this door is locked, the **LOCK BLØK** is preventing the door from closing enough to engage the latch.

In Open Mode, **LOCK BLØK** allows students to easily enter or exit the classroom.

CLOSED MODE

At the end of the school day, or whenever desired, **LOCK BLØK**'s rubber slide is moved over. By doing this, the door is then able to close completely which engages the lock mechanism. This makes it easy to create privacy without the need for keys.
